SUMMARY

- **I've spent over a decade leading agency development teams on high-profile web** projects, taking them from concept to launch. With over 20 years of professional development experience, I aim to lead by example and often serve as **lead Front-End developer**. I'm all about inspiring teamwork and building an exciting, collaborative office culture.
- I enjoy **working with clients, designers, and developers** to create straightforward, user-focused solutions. My teams have delivered successful solutions for esteemed clients such as JPMorganChase, Bimbo Bakeries, Marriott, Adecco, Telephonics, PayPal, and the NYC Department of Health.
- As a **Certified Web Accessibility Specialist,** I've coached team members and made sure projects fully comply with WCAG (ADA, Section 508) standards. I've also created testing protocols, developed custom testing tools, started a Meetup group, co-hosted a YouTube series, and led webinars and workshops to **spread the word and educate others about web accessibility**.

PROFESSIONAL EXPERIENCE

DIRECTOR OF FRONT-END DEVELOPMENT, ACCESSIBILITY SPECIALIST   Mar 2015 – Current

MILLENNIUM COMMUNICATIONS | Syosset, NY

A full-service digital agency providing brand strategy, design, development, and hosting solutions.

- I direct a team of front-end developers, mentoring junior team members, while providing oversight for solution design and development, contributing to $4M+ in project revenue annually. We utilize Drupal, NextJS, React.js, Wordpress, Shopify, Astro, JavaScript ES6, SASS, Bootstrap and Tailwind.
- My passion is accessibility, and in ensuring full compliance with ADA, WCAG, and Section 508 guidelines across all web projects. I work closely with designers, conduct comprehensive accessibility audits (VPAT), and perform remediation.
- I'm also lead front-end developer for high-profile web projects supporting internationally recognized brands, including JPMorganChase, Chase Bank, Marriott, and Bimbo Bakeries USA. I oversee successful CMS (Drupal, WordPress, Shopify) upgrades/rebuilds, improving KPIs such as sales and user engagement, and providing data-driven reports and solutions to clients.
- I've created advanced web-based API-driven interactive data visualizations using map and graphing JavaScript technologies like Plotly.js, HighCharts, Greensock and D3.js for prestigious clients such as the JPMorganChase Institute and Essence Magazine.
- Projects include brand sites for JPMorganChase, Entenmann's, Little Bites, Thomas', Marriott, Emmy's Organics and PayPal.
- Developed and commercialized a custom Web Accessibility Monitor, generating over $250K in yearly subscription revenue from CPG and education clients. Leveraged full-stack development tools such as Node.js, Express, Handlebars and JS ES6.

SENIOR DEVELOPER WEB APPLICATIONS   Sept 2013 – Mar 2015

TELEPHONICS | Farmingdale, NY

World leader in airborne multi-mode radar and identification technologies with defense and public-sector contracts.

- Web engineering lead for re-launch of Telephonics.com website, transitioning to headless Craft CMS. Developed a modern, mobile-responsive platform with measured improvements to user engagement.
- Managed project plans, RFPs, and vendor communications for all web-based projects, ensuring timely and on-budget delivery.

SENIOR DIGITAL PRODUCER, FRONT-END DEVELOPER   Jan 2011 – Aug 2013

ADECCO NORTH AMERICA | New York, NY

Fortune Global 500 company that offers talent advisory and solutions services in 60 countries.

- Designed, created, and managed high-traffic SharePoint client portals and WordPress sites. Contributed to the design and architecture of Adecco Group's Global Web Platform (GWP) for international deployment, ensuring adherence to WCAG 2.0.

ADDITIONAL EXPERIENCE

Manager, Software Department | Evero Corporation | New York   2004 – 2011

EDUCATION

IAAP Certified Web Accessibility Specialist (WAS)   2024

St. John's University – Bachelor of Science in Business Management   2002-2006
